

# **NO PROP. 103**

## **TOP TEN REASONS TO VOTE “NO” ON PROPOSITION 103.**

- 1. It is THE LARGEST TAX INCREASE IN STATE HISTORY.  
Five-year cost is \$3 BILLION (averages \$1,600 per adult couple).**
- 2. It is NOT guaranteed to aid “education.” Legislators can switch where this new tax money is spent, at any time, for any reason.**
- 3. It can free up money now spent on schools to go elsewhere. The false promise of “added spending” can be repealed next January.**
- 4. It doesn't detail how our money is spent (buildings, supplies, etc.) or where. All money can go to pay raises for leftist CU professors.**
- 5. It is a BLANK CHECK falsely billed as being “for the children.” Children won't receive ONE DOLLAR of that \$3 BILLION.**
- 6. This BIG TAX HIKE will crush our fragile Colorado economy. Businesses paying higher taxes will spend less on creating jobs.**
- 7. Schools need real reforms, not throwing more money at failures.**
- 8. It is not “temporary.” In 5 years, the big spenders will demand these higher taxes be made permanent (to avoid future “cuts”).**
- 9. Politicians are now raising taxes illegally, without voter consent, on items like cars, fuel, candy, sodas, water, advertising, etc.**
- 10. The state spends \$4.3 BILLION on schools now. Its revenue is UP \$480 million in 2011, and another \$614 million in 2012. Enough!**
